Front-End (ReactJS) Developer

Description
Do you want to be part of our fantastic company?

At WPMU DEV, we are looking for an outstanding frontend developer, who is passionate about learning and adhering to the best web development practices while improving and building our most important products.

Location is unimportant as long as you are available, enthusiastic, committed and know your stuff.

Responsibilities
You’ll be part of a development team working on our flagship products.

Qualifications
Must-Have:
- Experience with HTML5, SCSS and modern CSS (SVG, Animation, Flexbox/Grid, etc.)
- Strong proficiency in JavaScript, including DOM manipulation and the JavaScript object model.
- Experience in using Functional Components.
- Good understanding of responsive web standards and UI/UX best practices
- Experience with popular React.js and Redux
- Familiarity with RESTful APIs.
- Experience with common front-end development tools such as Babel, Webpack, NPM, Gulp, etc.
- Familiarity with code versioning tools (we use GIT)
- Ability to convert design specs (Invision, Photoshop, Sketch etc, into full working & pixel perfect HTML5/CSS/JSX templates.
- Ability to understand business requirements and translate them into technical requirements.
- Proactive, independent problem solver; addresses complex challenges with both focus and curiosity.

Nice to Have:
- Familiarity with BEM methodology
- WordPress development experience (WP Rest API, etc.)
- Write code with accessibility and web standards in mind.
- Building reusable components and front-end libraries for future use

Skill-set
ReactJS, JavaScript, HTML, CSS, SCSS, JSON, Rest API, Web API, SVG, Animation, Flexbox/Grid, Git
